June 29, 1984

Harold,

Had misplaced your note to me on what Nixon said about hearing of JFK. His plane schedule is in Briefs, so if you can type out a quick analysis, I'd be happy to print it next issue.

Poor Henry! While he's looking for a new publisher I've convinced our news department to pursue the Moorman photo. We could have a completed analysis by the end of the summer.

WFAA-TV's filmed interview with Mary Moorman is proof the FBI had the picture the afternoon of the assassination. The total absence of FBI interest from the public record tells me they probably did find something very important in her photo. Part of our station's work on the Moorman picture will include an FOI to the Bureau.

Cam

Phoned 7/2 & I advised on follow FOI requests
